

Sidekick **for SHADES**

5-channel Shade Remote Control

model number: SKS-500

The Quick Read

- ✓ Wireless flush mount shade remote.
- ✓ Communicates directly with the shade.
- ✓ Works with Somfy, Rollease, Dooya, Nice, and many more.
- ✓ 10-year battery life.
- ✓ Install with or without a workbox (flush mount).
- ✓ 5-channel control.
- ✓ Set up shade limits – no manufacturer remote required.

The Whole Story

Shade installers and A/V dealers asked us for a smarter shade remote. Sidekick is our answer.

Sidekick is a wall-mounted keypad that works with any shade technology supported by the Bond Bridge Pro. For select motor technologies, the Sidekick directly controls the shade motor. If you have a Bond Bridge Pro (BD-1750), then it also provides state feedback to the app and integrations – a major improvement over most first-party remotes. If your motor technology is not directly supported in Sidekick, a Bond Bridge Pro can relay the control.

Motor Technologies

Somfy RTS	Full Compatibility
Rollease ARC	Full Compatibility
Dooya	Works with Most Motors
